IMP02 – Environmental Policy Statement

(ISO 14001:2015, Clause 5.2)

Advanced Constructions is committed to delivering industry leading sustainable environmental standards throughout our multi-disciplined operations. This commitment will ensure that our activity will not have any detrimental influence on the environment or the community.

Our people will pursue our commitment to Environmental standards co-operatively and constructively. This commitment will be evident throughout all of our business relationships, and in the relationships we have with other stakeholders, such as government and community organisations.

Through our pro-active and progressive approach to developing, implementing, documenting and maintaining a integrated management system, we shall:

- Identify, assess and control our workforce personnel and environmental risks;
- Comply with, or exceed our moral, regulatory and legislative requirements under any applicable standards, codes of practice, regulations or acts;
- Employ, motivate, train, and skill our people to apply our Environmental policy and procedures;
- Implement initiatives that support sustainability;
- Prevent pollution entering the environment.

This policy, driven by Senior Management, establishes a framework for a management approach based on consultation and the establishment of objectives and targets designed to promote continual improvement of our practices and performance.

Our success will be driven by the value we bring to our projects. It will be our commitment to ensure that this policy is implemented in a co-operative work environment on all our project sites and offices regardless of size.

This policy is available to all interested parties, it is available on the company computer network, in all Project Management Plans and posted on all company noticeboards.

Ethan Sinclair

Managing Director
